Education

Imperial College London | MSc Business Analytics and AI

London, UK · Aug 2026 — Aug 2027

- Key Modules: Databases, Optimisation and Decision Models, Deep Learning and Gen AI, Advanced ML, LLMs

University of Bristol | MEng Mechanical Engineering

Bristol, UK · Sep 2021 — Jul 2025

- Upper Second Class Honours (2.1) 69% | Bristol PLUS Award, Think Big Scholarship
- First class in dissertation "Heuristic Optimisation Algorithms for Structural Health Monitoring Applications"
- Key Modules: Engineering Mathematics I and II, Data Driven Modelling, Behaviour of Dynamic Systems

Professional Experience

TikTok | Incoming Data Intern

London, UK · Jan 2027 — Jun 2027

- EU Regional LIVE Operations Strategy & Analytics

180DC Global | IT & Digital Global Data and Insights Specialist

Remote, UK · Jul 2026 — Present

- Built Python Pandas aggregation pipelines across 200+ branches and consolidated 30 health KPI metrics into structured datasets supporting bespoke Vercel CMS and Power BI reporting and global 2030 strategy
- Automated Monday.com and Webflow across a network of 9,993 projects enabling self-service status tracking

KKP Financial Group | Data Science and Engineering Intern

Bangkok, Thailand · Jul 2024 — Aug 2024

- Engineered features and evaluated ARIMAX and EGARCH models across 22 walk-forward windows, improved out-of-sample log-RMSE by 2.7% and reducing elevated-vol forecast error by 5.5%
- Built a market-risk research framework across 5 years of FX data generating next-day volatility, automated validation and backtesting for PySpark ETL pipelines across 6 external providers and 30 macroeconomic series

Technical Experience

Samaggi Samagom | Director of Digital Services & Infrastructure

London, UK · Nov 2022 — May 2026

- Led digital migration for 7,000 students and coordinated a team of 8 IT associates around a 8-month technical roadmap to a standardised AWS serverless pattern across 8 deployed services utilising Lambda and DynamoDB
- Established reporting views across 10,000 internal S3 documents exposing role-specific access via Amazon Q

Bristol Trading Society | Quantitative Developer - Derivatives

Bristol, UK · Sep 2024 — May 2025

- Engineered multi-source NLP macroeconomic pipeline processing 20,000+ news and option chains over 8 months extracting transformer sentiment features into PyTorch MLP to improve IV forecast accuracy by 3%
- Modelled theoretical option values from IV surfaces for a £320,000 paper portfolio benchmarking BS

Learn 2 Innovate | Machine Learning Engineer

Cardiff, UK · Dec 2023 — Apr 2024

- Built pre-trained TensorFlow CNN classifier with LOCV + stratification using 12,000 MRI scans achieving 87% F1
- Evaluated SaaS viability across a £30,000 SOM market with product surveyed from 16 clinical stakeholders

Additional Information

Certifications: AWS Cloud Practitioner, AWS AI Practitioner, AWS Machine Learning Engineer Associate

Technical Skills: Python (TensorFlow, PyTorch, Langchain, MLFlow, PySpark), Cloud (AWS, GCP), SQL, Databases (Databricks, MongoDB), Dashboarding (Power BI, Tableau), R, VBA, C++, W&Bs, K8, Terraform, Git, Shell

Languages: English (C2), Thai (C2), Mandarin (B1)

Interests: Dance – 6+ years; member of multiple professional cover and competition dance crews across London
Automotive Projects – Customised dashboard-activated under-fender LEDs for a Triumph motorcycle
