Technical Experience

Queen's Tower Exchange | Cloud and DevOps Engineer

London, UK · Jun 2026 — Present

- Translated decision log requirements from heads into AWS exchange product for 250 students and preserving launch-critical scope on a 12-week schedule across 6 sprints
- Streamlined engineering delivery and governance across CICD cloud deployment using review gates and AI CODEOWNERS to ensure reproducible and deterministic IaC infrastructure to support 34 live trading teams

Samaggi Samagom | Director of Digital Services & Infrastructure

London, UK · Nov 2022 — Present

- Led redevelopment of the organisation's public CMS and introduced AI-powered internal search using Amazon Q and retrieval-augmented generation for 7,000 users in the UK and maintaining sub \$30 monthly Opex
- Translated organisational constraints into 8-month product roadmaps for services across 6 departments and coordinated IT associates to deliver serverless systems supporting SSO, corporate sponsor, and event ticketing

18oDC Bristol | Head of Data Science Operations

Bristol, UK · Sep 2024 — Present

- Developed non-profit recommendations with modelling emissions-reduction strategies worth £70,000+
- Provided automation of 120 fragmented client employment journeys into scalable VBA database registrars
- Delivered analytics and data infrastructure projects across 5+ clients, clustering 50+ partner organisations and streamlined conversion-management workflows for 300+ consultants to improve satisfaction by 16%

Professional Experience

18oDC Global | IT & Digital Global Data and Insights Specialist

Remote, UK · Jul 2026 — Present

- Supported KPI monitoring and digital operations across 210 global branches which consolidated 30 organisational metrics covering 9,993 projects and growth OKRs for leadership reporting on Power BI
- Liaised across teams to automate Growth lead tracking and compliance checks aggregating 82,000 students

KKP Financial Group | Data Science and Engineering Intern

Bangkok, Thailand · Jul 2024 — Aug 2024

- Segmented investors across 40 branches and 130+ investment products to identify high-value cohorts and product preferences to inform targeting for an AI-powered investment recommendation system in 4 weeks
- Used Python and PySpark to process roughly 1M daily observations across KKP's Databricks lakehouse platform

Additional Information

Certifications: AWS Cloud Practitioner, AWS AI Practitioner, AWS Machine Learning Engineer Associate

Technical Skills: Python (TensorFlow, PyTorch, Langchain, MLFlow, PySpark), Cloud (AWS, GCP), SQL, Databases (Databricks, MongoDB), Dashboarding (Power BI, Tableau), R, VBA, C++, W&Bs, K8, Terraform, Git, Shell

Languages: English (C2), Thai (C2), Mandarin (B1)

Interests: Dance – 6+ years; member of multiple professional cover and competition dance crews across London
Automotive Projects – Customised dashboard-activated under-fender LEDs for a Triumph motorcycle
